Monday 20th July	TERM 3 BEGINS

## Student Led Conference Dates

Friday 26th June 2019	Student-Led Conference
Friday 4th Dec 2019	Student-Led Conference

## Term Dates 2020

Term 1, 2020	28th January—8th April 2020
Term 2, 2020	27th April—26th June 2020
Term 3, 2020	20th July—24th September 2020
Term 4, 2020	12th October—9th December 2020

## Principal's Word - Tony Peters

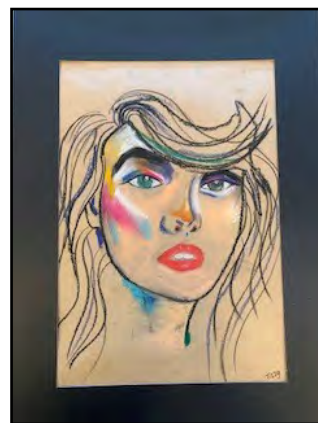

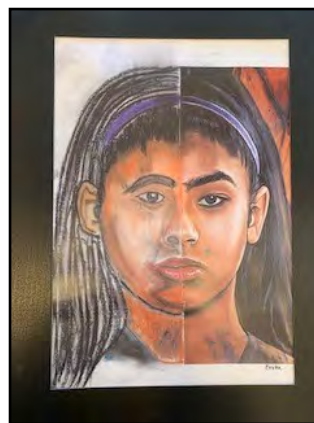

Staff are focusing on 'JOY' during our daily devotional time in the morning. This is proving beneficial as we are reminded on a daily basis, that God provides us with joy in so many things. For me, greeting children in the morning brings me great joy, especially when a child says good morning to me first! When I see a child smiling as they walk into school for another day of

learning, that brings me great joy and I thank God for the opportunity to be a part of this school. We do have much to be thankful for here at Crossways and to share this with one another through many different ways should bring to us immense joy! You should have received a letter last week regarding how the school will pay tribute to the late Mr Dean Heyne. If you haven't seen this letter, please get in contact with the school so that you are informed about what the school will be doing, including how your child will be participating in this. You are to let the school know if you choose not to have your child participate. Students are asked to wear their full winter uniform.

As a school community member you are invited to join us this coming Friday on the school oval for a guard of honour, announcements and choir. This will begin at 9.45am sharp this Friday and as we come together to honour Dean, please remember to practice social distancing.

In just under 3 weeks time, you will have the opportunity to see first-hand your child's learning journey so far this year by participating in the Student-Led Conference being held on Friday 26<sup>th</sup> June. You will be receiving a letter about this very soon where you will be asked to allocate a time on this day for the conference and get in contact with the front office. I ask that you make every effort to attend the conference and to get involved with your child's learning. This is another way to make connections with your child's learning and with the school.

## Mrs Lambeff's Reception Class

Hi everyone, my name is Derani Hoffrichter, and I grew up in Ceduna before moving away to boarding school. I am a teaching student and I have been placed here with Mrs Lambeff's and the Receptions. We are having lots of fun learning about patterns, words, sentences and Reconciliation week. Last week for Science we looked at the Three Little Pigs Book and the materials we use to build shelters and buildings (see pictures). The students explored the different types of materials 'The three little pigs' used in the book (straw, sticks and bricks). We then tied this into our STEM investigations by building shelters from cardboard boxes and seeing if they could withstand a leaf blower. I was very impressed with all the creations made by the students. I continue to learn throughout this wonderful experience and am grateful for the opportunity.

## Deputy Principal Report

Welcome to Week 7 of Term 2. How quickly the term is going. The students are busy preparing themselves for the **Student Led Conferences**, which will happen on Friday of Week 9. You will soon hear from the school in regards to booking in a suitable time to bring your child in and look at the learning they have been involved in this semester.

### Middle School Visual Art

The middle school students are producing some fantastic art based around a number of different topics including Post Impressionism, Abstract Portraits, Impressionism and Pop Art. They are also expanding their painting skills using a range of techniques from creating texture with palette knives and impasto to refining their water colour techniques.

I am looking forward to helping the students put a display together in the middle school corridor for all to view.

### SRC News

This week there will be a Casual Clothes Day on Thursday to fundraise for the less fortunate. As you may be aware, all the funds we raise are donated to The Australian Lutheran World Service, and we choose to have our money allocated to educating those who cannot afford to attend school. At this stage we have raised about \$350, so with the support of the Crossways Community we will continue to raise funds.

Next semester we plan to allow students to apply to be on the SRC team to give others a chance to try out their leadership skills. If your child would like to be involved in our Student Representative Council, they will need to prepare a letter explaining why they would be a good leader to their peers and we will vote closer to the end of the term.

### Middle School Food Technology

Due to a few staffing changes Andrew McIlwraith has kindly agreed to plan and run our middle school cooking classes until the end of the term. This is a perfect fit for Andrew as he has a wealth of knowledge and skills through completing his Chef apprentice many years ago and working as a qualified chef prior to starting work here at Crossways. We are very grateful for his support in this role.

## Middle School Food Tech

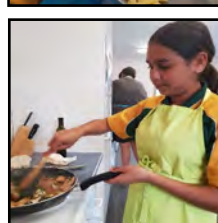

This term has been challenging for everyone in school particularly in our area of learning. The changes that the students and teachers had to go through due to unforeseen circumstances has never stopped us from continuing our learning in every aspect of deepening our exploration and broadening our horizon.

In the past weeks the students have been demonstrating a lot of interest in prepping and using the ingredients to produce a meal based on the theme which was both inspiring and pleasing to see. Recently they have been practicing a mini recipe for baking or cooking a menu that they might choose to show during the Student-Led Conference, which will be held at the end of week 9 for the parents by the students themselves. This will be a great showcase to develop their skills and confidence in both presenting and demonstrating what they have been learning.

Due to a few changes in staffing, and from Week 5 of this term, the students will be fully supported by Andrew McIlraith who will continue to demonstrate passion in providing the learning in this subject area. I am now teaching in the Year 3/4 classroom while Mr Paul Munday is on leave.

We are pleased to have this platform where students from Year 5 upwards are learning how to cook as well as learning about the nutrients that is present in food. They are also developing lifelong skills that will enhance their knowledge in the area of understanding food and its importance for the human body. Students at Crossways learn skills in Food Tech from their first exposure in Year 5 until they complete year 10 and will have opportunities to put into practice their cooking skills throughout their lives.
