Week 10 (Wed 22/9)	Last Day of Term 3
Week 10 (Thu 23/9)	Student Led Conf. (Student Free Day)

2021 TERM DATES

TERM 4	11th October - 8th December
--------	-----------------------------

As we complete another term, I would like to take this opportunity to thank you all for the continuing contributions you are making to your child's education. As you know this can be done in so many ways, both within the school and out in the community. Never underestimate the impact you have when you participate in your child's education. It was another very busy term and I congratulate staff and students for the many ways they have given their best. Have a safe and enjoyable break with family.

Principal's Word - Tony Peters

Earlier this week, Gary Clarke did some work with us leading up to a new Strategic Plan for the school. Gary has a wealth of experience working with schools, particularly with Lutheran schools, and I have very much appreciated his experience, knowledge and input during the days he has spent with us. During his visit, Gary spent time with School Board members, staff,

students and parents gathering data which will have influence on our priorities and strategies for our strategic plan. I'd like to thank the students, parents/carers, board members and staff who were able to attend one or more of the forums facilitated by Gary, providing valuable input to the current and future needs of the school. Gary will return to Crossways during term 4 and it is envisaged that the new Strategic Plan will be enacted some time during Term 1, 2022.

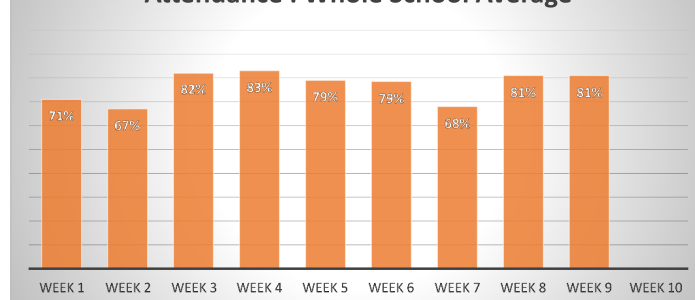

To complete the term, this week we will celebrate Footy Colours Day with a Sausage Sizzle lunch which will be cooked by the RSAS Team, followed by Whole school Assembly where we will celebrate the Learning over the term. We will then finish the day with a Staff Versus Students footy match. The staff are very keen to make amends this year after losing to the students last year, however, I have a feeling that the staff team will be undermanned this year due to parents not being able to play. Inside information has it that Students' new coach Caretti has a number of tactics up his sleeve to make sure his team are victors. Thank you to the RSAS team for their continued support.

Year 6/7 Class

In the Year 6/7 class this term, we have been learning about Engineering Design Process and have been focussing on STEM lessons in Science. With a given aim, students first brainstorm ideas to define the problem in their groups. Then, depending on the task whether students will be choosing their own materials or will be using given supplies, they sketch their ideas and start building their model. Students then test their design and modify if needed. Throughout the STEM activity sessions, I was amazed by the Year 6/7 students' ability to work collaboratively with one another in brainstorming their ideas and demonstrate their ability to research, plan and think creatively.
