Principal's Word - Tony Peters

Newness!

God talks about having new life in Him. How do we become new?! If we are talking about becoming new, then there must be an old-self that needs renewing. So what is wrong with the old-self that we need to renew? God is referring to our sinful nature and to be renewed means to trust God for that renewal. God wants to clothe us with a robe of

righteousness and cover our mess. We seek God to do this, we seek Him through prayer, worship and journeying with others who seek the same. As we approach Easter (just over 3 weeks away), it is timely to reflect on what Christ did for us on the cross. Through that incredible feat, we are promised new life in Christ and that's the miracle of Easter.

Checking God's word in 2 Corinthians 5:16-17, we read:

So from now on we regard no one from a worldly point of view. Though we once regarded Christ in this way, we do so no longer.

Therefore, if anyone is in Christ, the new creation has come: The old has gone, the new is here!
That's something worth celebrating!

Student-Led Conferences

Wednesday 13 April is the day set aside for you to come in with your child and spend time journeying with them on a learning journey with the class teacher as a guide. A formal letter went home this week about the Conferences so if you haven't done so already, please read this and call the school to make a booking.

BGA Visit

This week, Jane Pike and Peter McCabe from the Block Grant Authority (Capital Grants Funding Body) will be visiting the School along with architect, Tim Geue. The purpose of their visit is to determine the viability and significance of a proposed Well-Being Centre for the School. They will also be interested in viewing and discussing the School's Master Plan (draft form) which is currently being developed alongside the School's Strategic Plan. I will keep you informed with the progress of the proposed building project as well as the development of the new Master Plan.

God's blessings, **Tony Peters**

Growing our Relationships

Year 6/7 Maths & Science

What an exciting time we have had in the Year 6/7 class this term! In the Year 6/7 Mathematics class, prior to commencing the GGSA Mathematics program, we have been focusing on Whole Numbers this term. Students have been practising adding, subtracting, multiplying and dividing whole numbers as well as learning to use number lines and round numbers. The Year 6/7 students have amazed me with their continuous effort towards their learning and have demonstrated good knowledge, skills and improved confidence in the topics discussed this term. In our Science lessons, we have been learning about safety in the science laboratory including important science investigation skills such as observing, measuring and recording data. Students conducted a number of practical activities to practise their science investigations skills and it was great to see them explore with enthusiasm.

Working Together Towards a Brighter Future 

Middle School P.E.

Last Monday several of our Senior Class girls opted to attend the AFL Diversity Talent Testing held at Ceduna Area School. The girls were put through a series of trials to test agility, speed, skills and reaction times.

These trials are set to identify talent from across the Eyre Peninsula and to seek interest from those who are looking to take the next step in a possible AFL future. The girls from Crossways put their best foot forward throughout the trials and can definitely hold their heads high. *"We had fun training especially the jumping and the sprint timing"*, Kaliah Lennon-Gray.
