TERM 4	8th Nov - Staff Professional Development

Principal's Word - Tony Peters

The Most High God

For you, O Lord, are supreme over all the earth; you are exalted far above all gods.

(Psalm 97:9)

When reflecting on this verse, I am reminded of God's amazing power - he created the heavens and the Earth and every living thing. God is the owner of the universe, it's his and with this there is order.

God created human beings to do a whole lot of things and one very important task for people is to look after his creation.

How do you think we are going with this awesome responsibility? Some might say we're doing some good things such as caring for the environment and others may say we're not doing a very good job at all. Importantly, there is always room for improvement and advancements and if we can work together as well as each one of us doing our bit, whatever that looks like, however big or small, then we are heading in the right direction and we are doing what God asks of us.

A couple of questions for each of us to consider every day: How am I being responsible for God's creation? What am I going to do today to look after what's around me?

Sophie Thomson Visit

Sophie's visit to the school on Tuesday this week was excellent! She is an outstanding advocate for all things in the garden. The SRC members met with Sophie for about an hour which included ways we as a school could set up our own Veggie garden. Sophie gave us really good tips in setting up garden beds, water usage, shade, climate and the importance of creatures such as bees, for the garden. We now have some really good starting points for our School's Veggie Garden! We thank Sandy Taylor for the work she did in bringing Sophie to us through the 'Our Town' initiative.

SAPSASA

Over coming weeks, a number of students will be competing in State Carnivals in Adelaide. This is a really good opportunity for participants to develop their sporting skills at a much higher level. Crossways values this participation and on Sunday 6 students will be making their way to Adelaide to compete at the Football trials. Crossways thanks the support of the Youth Hub and in particular allowing Tracey Miller to supervise and support students. We wish all students involved all the very best and pray that their time is beneficial, exciting and one of growth.

Blessings,
Tony Peters

Junior School Art

"Last week to celebrate cultural diversity and heritage students were able to learn and perform a cultural dance. It was great to see students smiling and laughing as they challenged themselves. Normally in art we have been focusing on drama. This has given students the ability to learn through body, role, character, mood, voice, expression and movement. Students are looking forward to getting into role play, and storytelling through acting and improvisation in the following weeks.

Rebekah Ridley - J/S Coordinator

Over the last few weeks, we have had some great opportunities to get together as JS and participate in collaborative activities. In Week 1, Junior School students were involved with Footsteps Dance. Each day, we learnt a new dance, it was a great way to begin our school day. It was so lovely to utilise the canopy space and enjoy the fresh air and sunshine as we learnt about different concepts of

dance. A big thankyou to our instructor, Bec who did a fantastic job!

This week, we participated in Simultaneous Storytime. Simultaneous Storytime is where educational sites all over Australia read the same book at the same time (11am). This years book was Family Tree by Josh Pyke. It had beautiful illustrations and told a story about the journey and life of a tree. Thank you to our guest reader Mr Peters!

Working Together Towards a Brighter Future 

Year 3/4 Donald Class News

Hello from Year 3/4 Donald! It's been a busy first few weeks of Term 2 as we continue to manage the current COVID-19 situation in our school community. With smaller numbers than usual, the students have been busy starting our new learning programs for Term 2. We have enjoyed using physical manipulatives to learn our times tables in Maths, and it has been a joy seeing the progress the students have made in developing their numeracy skills.

I want to congratulate our Year 3 students for the positive attitude they demonstrated as they completed their NAPLAN testing in Week 2. In HASS we are also learning about the importance of First Nations people to Australian society and culture. The students have enjoyed bringing their local knowledge to the classroom by creating an Aboriginal-English word poster which has been a lot of fun. Keep up the great work team Year 3/4 D.

Clinton Donald

Year 2 Class News

The Year 2s have been busy having fun learning so much this Term. In Science we have been exploring different forces. We have used match box card to explore push and pull forces and explored the classroom looking for examples of gravity!. It has been great to see students using Technology to record their learning and growing in confidence when presenting their learning to the class.

Stay tuned for our exciting Technology lessons coming up! We are using our understanding of forces to create some arcade games! The Year 2s have been so excited planning their games and we can't wait to share it with you when we have made them!

Terena Evans—Deputy Principal

Clean up crew

It's been wonderful taking small groups of students out from school to clean up along our foreshore. We were impacted at the beginning of the year due to restrictions on excursions because of the dreaded C19 continuing to create havoc to our lives. The students in this group have volunteered their service to help keep our town clean. During week 3 and 4 we were blessed with gorgeous weather and managed to collect a lot of rubbish. The student's attitude was 100%, they were cheerful and keen to get as much rubbish off the grass, beaches and rocks. It saddens me that there is so much rubbish but we hope by cleaning weekly we are able to set a good example to all and give back to our community.

Oyster renovation

Another community service Crossways staff and students are working on is the re-painting of the 'Big Oyster'. This project came to us through Leon Veerhuis, one of the main creators of the concrete shell!! The plan is to give the oyster a face lift then it will be re-positioned somewhere along the foreshore for tourists and locals to view.

Cultural Inclusion : Dress up day

On Thursday the 19th of May, Crossways celebrated a day of cultural diversity as staff and students dressed up as their own historical culture, their country of culture, another culture or as the flag colours of a culture of choice. Our numbers were unfortunately low due to students and staff in isolation due to Covid19. I am really looking forward to the day where we no longer have to blame everything on this virus!!! It was great to see the effort that went into the outfits, we saw Greece, Holland, Australian and Thailand cultures represented just to name a few. Well done to the 'dress up winners'
